I Inflation and inflation expectations

I-13

Inflation expectations of businesses and households one year ahead and current inflation

Inflation — Household inflation expectations Businesses' inflation expectations

1. Inflation expectations according to surveys carried out by Capacent Gallup. Respondents are asked about inflation 12 months ahead and median figures are used. Businesses' inflation expectations were measured on an irregular basis before Q3/2006 until then, measurements are interpolated.

Sources: Capacent Gallup, Statistics Iceland.

I-15

Price level and exchange rate developments

The exchange rate index is calculated based on a narrow trade basket. Monthly data. Sources: Statistics Iceland, Central Bank of Iceland.

Import price levels and exchange rate developments

Import-weighted exchange rate index (March 1997 = 100)
 Imported goods excluding alcohol and tobacco

Import-weighted exchange rate index and price of imported goods in the CPI. The import exchange rate index is published with a one-month time lag, as price level measurements are carried out at mid-month. Monthly data

Sources: Statistics Iceland, Central Bank of Iceland.

I-16

Distribution of price increases in the CPI

The percentage of goods categories that increase in price is a 3-month centred average. Monthly data

Source: Statistics Iceland.

I-17

Inflation in Iceland and Europe

Harmonised indices of consumer prices. Monthly data. Source: Statistics Iceland.

II-1

Gross domestic product

Contribution of individual components to output growth. Year-on-year change. Annual data.

Source: Statistics Iceland.

II-2

Output growth and national expenditure

II-3

Private consumption, public consumption and gross fixed capital formation

Source: Statistics Iceland.

11-4

Gross fixed capital formation

Contribution of individual items to gross capital formation. Quarterly data. *Source:* Statistics Iceland.

II-5

Foreign trade

Quarterly data.

Source: Statistics Iceland.

II-6

Turnover according to VAT returns

Changes made in the classification of business sectors as of year-end 2010 complicate the comparison of sub-categories before and after 2010; however, figures published for 2010 are fully comparable to figures for 2011 and later. Deflated by the CPI. Seasonally adjusted data for two-months periods. Sources: Statistics Iceland, Central Bank of Iceland.

II-7 Turnover according to VAT returns: several components

Changes made in the classification of business sectors as of year-end 2010 complicate the comparison of sub-categories before and after 2010; however, figures published for 2010 are fully comparable to figures for 2011 and later. Deflated by the CPI. Retail sector is deflated by the CPI excluding housing and petrol, and construction sector is deflated by the CPI. Seasonally adjusted data for two-month periods. Sources: Statistics Iceland, Central Bank of Iceland.

...

Payment card turnover

Debit and credit card turnover deflated by the CPI less housing costs.

Sources: Statistics Iceland, Central Bank of Iceland

11-9

Total household payment card turnover

Seasonally adjusted debit and credit card turnover deflated by the CPI less housing costs. Turnover abroad is deflated by the exchange rate index. Quarterly data

Sources: Statistics Iceland, Central Bank of Iceland.

II-10

Foreign payment card turnover in Iceland

Foreign payment card turnover deflated by the CPI less housing costs. Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland.

II-11

Groceries turnover

Deflated by price of groceries in CPI. Monthly data.

Sources: Icelandic Centre for Retail Studies, Central Bank of Iceland.

II-12

Retail sub-indices

Seasonally adjusted. Deflated by price indices of each component. Monthly data.

Sources: Icelandic Centre for Retail Studies, Central Bank of Iceland.

II Output and demand

II-13
Private consumption, groceries and payment card turnover

Quarterly data. Data for Q2/2012 are for April-May.

Sources: Icelandic Centre for Retail Studies, Statistics Iceland, Central Bank of Iceland

II-14

Cement sales

3-month moving average. Monthly data.

Sources: Aalborg Portland hf., BM Vallá, Sementsverksmiðjan hf., Central Bank of Iceland.

II-15
Importation and new registration of motor vehicles

3-month moving average. New motor vehicle registrations include new and used vehicles in all categories (passenger cars, motor coaches, and delivery and transport vehicles). Monthly data.

Sources: Bílgreinasambandið, Statistics Iceland, Central Bank of Iceland.

II-16

Indices of expected big-ticket purchases

Indices of expected big-ticket purchases are based on Capacent Gallup consumer sentiment survey. The index for expected big-ticket purchases is an average of the other three indices. Quarterly data.

Source: Capacent Gallup.

II-17
Capacent Gallup Business Sentiment Indices

The Business sentiment indices are based upon Capacent Gallup's survey of the largest companies in Iceland. The columns show the sentiments towards the current situation in the economy.

Source: Capacent Gallup.

II-18

Consumer sentiment (Gallup)

Monthly data.

Source: Capacent Gallup

II Output and demand

II-19
Private consumption and Gallup Consumer
Sentiment Index

Points show 2-month average of values in April and May. Quarterly data. Sources: Capacent Gallup, Statistics Iceland.

III Foreign trade and external economic conditions

Sources: Statistics Iceland, Central Bank of Iceland.

III-2 Components of current account

Net current transfers are included in factor income. Quarterly data. Sources: Statistics Iceland, Central Bank of Iceland.

III-3 Merchandise trade balance as percentage of merchandise exports

12-month moving averages. Monthly data.

Source: Statistics Iceland

Merchandise imports and exports at constant exchange rates

Monthly data.

III-4

Sources: Statistics Iceland, Central Bank of Iceland

III-5

Components of merchandise exports

Merchandise export values at constant exchange rates based on monthly average export-weighted exchange rate index (broad trade basket).

Sources: Statistics Iceland, Central Bank of Iceland

III-7

Volume changes on main export products

Source: Statistics Iceland.

III-6

Components of merchandise imports

Merchandise import values at constant exchange rates based on import-weighted exchange rate index (broad trade basket).

Sources: Statistics Iceland, Central Bank of Iceland.

III-8

Volume changes on main import products

Capital goods including ships and aircraft. Quarterly data Source: Statistics Iceland.

III-9

Volume changes on import products

Non-durable consumer goods are disposable items such as tobacco and pharmaceuticals. Semi-durables are products that are neither disposable nor durable, such as clothing. Consumer durables are products with a long life-time, such as household appliances. Quarterly data.

Source: Statistics Iceland.

III-10

Merchandise exports

Exported merchandise value calculated as a 3-month moving average at

constant exchange rates based on export-weighted exchange rate index (broad trade basket). Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland.

III-11 Merchandise exports by category

Exported merchandise value calculated as a 3-month moving average at constant exchange rates based on export-weighted exchange rate index (broad trade basket). Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland.

III-12 Seasonally adjusted merchandise imports

Imported merchandise value calculated as a 3-month moving average at constant exchange rates based on export-weighted exchange rate index (broad trade basket). The index of foreign price levels is calculated by weighting together the consumer price indices in main trading partner countries using a currency basket. Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland

III-13 Merchandise trade in January - March

General imports are total imports excluding ships, aircraft, and sundry items (residual). General exports are total exports excluding ships, aircraft, and sundry items (residual). Monthly data.

Source: Statistics Iceland

III-14

Services balance

Quarterly data at constant exchange rates. *Source:* Central Bank of Iceland.

III-15

Fish catch volume

Monthly data at constant price levels Source: Statistics Iceland.

III-16

Marine export value

Cumulative catch volume from beginning of year. Cumulative value of marine exports from beginning of year; nominal fob value. Monthly data. *Sources:* Directorate of Fisheries, Statistics Iceland.

Foreign currency prices of marine products are calculated by dividing marine products prices in Icelandic krónur by the export-weighted trade basket. LME aluminium prices are in US dollars. Monthly averages plus most recent aluminium prices.

Sources: Statistics Iceland, London Metal Exchange (LME), Central Bank of Iceland

III-18

Aluminium production

Annual aluminium production for 2012 is production in January- April. Monthly data.

Source: Statistics Iceland.

III-19

Global crude oil and gasoline prices

Monthly averages, most recent daily prices, and forward prices 12 months ahead in US dollars.

Sources: Bloomberg, Nymex

III-20

Global crude oil and gasoline prices

Weekly data.

Source: Bloomberg.

III-21 Commodity prices in international markets

Source: Macrobond

III-22 Global commodity prices and Icelandic export prices

Monthly data.

IV Labour market and wages

IV-1

Unemployment

Registered unemployment is the average number of individuals registered with employment agencies nationwide as a percentage of the estimated number of persons in the labour market in each month. Monthly data. Sources: Directorate of Labour, Central Bank of Iceland.

IV-3

Unemployment register: Inflows and outflows

Monthly data. Source: Directorate of Labour. IV-2

Number of unemployed and total labour force

Registered unemployment is the average number of individuals registered with employment agencies nationwide as a percentage of the estimated number of persons in the labour market in each month. 1. Directorate of Labour estimate. Monthly data. Source: Directorate of Labour.

IV-4

Companies planning to change staffing levels during the next 6 months

Data based on Capacent Gallup's survey of the 400 largest companies in Iceland. Source: Capacent Gallup.

IV-5

Vacancies and foreign labour

3-month moving average. The E-8 countries are Estonia, Latvia, Lithuania, Poland, Slovakia, Slovenia, Czech Republic, and Hungary. Monthly data. *Source*: Directorate of Labour.

IV-7

Employed persons and number of persons at work

Employed persons are those who worked at least one hour during the reference week or were absent from work that they were hired to carry out. Persons at work are those who worked one hour or more during the reference week. Quarterly data.

Source: Statistics Iceland.

Changes in labour force

Contribution of age groups to changes in total hours worked. Until 2003, the Statistics Iceland labour market survey included only one week in April and one week in November; however, since January 2003, it has been continuous and the results published quarterly. As a result, figures from January 2003 and thereafter are not entirely comparable with earlier figures. Quarterly data

Source: Statistics Iceland.

IV-6

Unemployment rate and labour participation rate

Until 2003, the Statistics Iceland labour market survey included only one week in April and one week in November; however, since January 2003, it has been continuous and the results published quarterly. As a result, figures from January 2003 and thereafter are not entirely comparable with earlier figures. Quarterly data

Source: Statistics Iceland.

IV-8

Changes in labour force

Until 2003, the Statistics Iceland labour market survey included only one week in April and one week in November; however, since January 2003, it has been continuous and the results published quarterly. As a result, figures from January 2003 and thereafter are not entirely comparable with earlier figures. Quarterly data.

Source: Statistics Iceland.

IV-10

IV-9

Nominal and real wages

Real wages are the wage index deflated by the CPI. Monthly data. Source: Statistics Iceland.

13

IV-11

Wage changes by sector

Until 2006, private sector wages, on the one hand, and public sector and banking sector wages, on the other, are components of the wage index; however, from 2006 onwards, the banking sector is included in private sector wages. Ouarterly data.

Sources: Statistics Iceland, Central Bank of Iceland.

IV-13 Private sector wage index by occupational group

Occupational groups are defined according to ÍSTARF 95 classification system. Quarterly data. Source: Statistics Iceland.

IV-15

Migration

Yearly numbers for the period 1986-2011 and quarterly numbers from Q1/2010. Source: Statistics Iceland.

IV-12

Private sector wage index by sector

Sectors are defined according to ÍSTARF 95 classification system. Quarterly data.

Source: Statistics Iceland.

IV-14

Private sector labour cost index by sector

Total labour cost excluding irregular bonuses per hour. Sectors are defined according to ÍSAT 95 classification system. Quarterly data. Source: Statistics Iceland.

V-1 Public sector revenues, expenditures and balance

Percentage of gross domestic product from last four quarters. In real terms, deflated by CPI. Quarterly data. Source: Statistics Iceland.

V-2 Treasury revenues, expenditures and balance

Percentage of gross domestic product from last four quarters. In real terms, deflated by CPI. Quarterly data. Source: Statistics Iceland.

Local government revenues, expenditures and balance

In real terms, deflated by CPI. Quarterly data. Source: Statistics Iceland.

Local government revenues and expenditures

In real terms, deflated by CPI. Quarterly data. Source: Statistics Iceland

Public sector debt

Excluding civil service pension liabilities and equity holdings. Debt on transaction accounts netted out of assets.

Sources: Ministry of Finance, Statistics Iceland.

V-6 Public sector interest expense

Source: Statistics Iceland.

V Public finances

V-7

Treasury balance and net credit balance

 $4\mbox{-month}$ moving averages, deflated by the CPI. Revenues from assets sales included. Monthly data.

Sources: State Accounting Office, Central Bank of Iceland.

V-8

Regular revenues excluding asset sales, regular expenditure excluding interest

4-month moving averages, deflated by the CPI. Monthly data. *Sources:* State Accounting Office, Central Bank of Iceland.

V-9

Tax revenues

4-month moving average, deflated by the CPI. Monthly data. *Sources:* State Accounting Office, Central Bank of Iceland.

V-10

Treasury expenditures by type

4-month moving average, deflated by the CPI. For December 2008, irregular expenditures totalling 192 b.kr. due to the banks' collapse are not shown. Monthly data.

Sources: State Accounting Office, Central Bank of Iceland

V-11

Treasury expenditures by function

4-month moving average, deflated by the CPI. Monthly data. Sources: State Accounting Office, Central Bank of Iceland.

VI-1
Housing market prices and turnover in greater Reykjavík

Turnover is based on the number of purchase agreements on the date of purchase. Monthly data.

Sources: Registers Iceland, Central Bank of Iceland

VI-3 House prices in greater Reykjavík

Monthly data.

Sources: Registers Iceland, Central Bank of Iceland.

VI-5

Advertised property and average time to sale

Houses/row houses/duplexes (left) Multi-family buildings/flats (left)
All properties (left) Average time-to-sale (right)

Monthly average of advertisements on Morgunbladid real estate website The count is carried out by properly code so as to avoid a repeat count of the same property. Monthly turnover is according to the number of officially registered purchase agreements. The average time to sale is the length of time (in months) that it takes to sell advertised property divided by the turnover for the month in question.

Sources: Morgunbladid Real Estate Website (mbl.is), Registers Iceland

VI-2

Housing market prices in greater Reykjavík

Price per sq.m. (immediate payment). 3-month average. Monthly data. *Sources:* Registers Iceland, Central Bank of Iceland.

VI-4

Market price of residential housing

Monthly data.

Source: Statistics Iceland

Number and amount of new residential housing loans

Information on new pension fund loans is based on a sample covering the nation's 20 largest pension funds. During the survey period, the number of pension funds in the sample rose from 18 to 20. The sample now extends to almost 97% of Icelandic pension funds' net assets. Monthly data. Latest month excludes the pension funds. Number of new loans is shown as a 3-month rolling average.

Sources: Housing Financing Fund, Central Bank of Iceland

VI-7

Commercial property prices in greater Reykjavík

Weighted average of industrial, retail, and office housing. Data are subject to uncertainty due to sparsity and divergence of measurements. Quarterly data. Sources: Registers Iceland, Central Bank of Iceland.

VI-9

Equity market

Total monthly volume of listed shares and monthly average of main stock indices. Source: Nasdaq OMX Iceland.

VI-8

Turnover of commercial housing

Retail property and offices
Industrial, warehouses and other properties

Before June 2006, turnover is based on purchase day, otherwise on day of registered sales agreement.

Sources: Registers Iceland, Central Bank of Iceland.

VI-10

Bond indices

Indices are the OMX Nordic Exchange Iceland's calculations of yields on fixed-maturity bonds. Daily data.

Source: Nasdaq OMX Iceland.

VII Financial markets

VII-1

Credit system lending growth

Due to reclassification of lending, data from Q3 2003 are not comparable to earlier data. Quarterly data. The series have not been updated since September 2008 due to lack of data.

Source: Central Bank of Iceland.

VII-2

Household debt with major credit institutions

From September 2008, debt to DMBs are shown at discounts as taken over by the new banks. The total includes insurance companies and the student loan fund. Latest data can be partly estimated.

Source: Central Bank of Iceland

VII-3

Credit institution lending to businesses

Contribution of individual components to lending growth. From September 2008, lending is shown at discounts as taken over by the new banks. The category labelled "other" includes bills of exchange, redeemed guarantees, and asset financing agreements. Data from October 2008 are preliminary. Monthly data. Source: Central Bank of Iceland.

VII-4

DMB lending to households

Contribution of individual components to lending growth. From September 2008, lending is shown at discounts as taken over by the new banks. The category labelled "other" includes bills of exchange, redeemed guarantees, and asset financing agreements. Data from October 2008 are preliminary. Monthly data. Source: Central Bank of Iceland.

VII-5

Companies' deposits

Contribution of individual components to deposit growth. Term deposits include money market accounts and other non-sight deposits. Indexed deposits include pension savings, indexed vacation allowance accounts, and other indexed savings Data from October 2008 are preliminary. Monthly data.

Source: Central Bank of Iceland.

VII-6

Household deposits

Contribution of individual components to deposit growth. Term deposits include money market accounts and other non-sight deposits. Indexed deposits include pension savings, indexed vacation allowance accounts, and other indexed savings. Data from October 2008 are preliminary. Monthly data.

Source: Central Bank of Iceland.

VII-7

M3 and domestic bank credit

Corrected for estimated effects of price level and exchange rate movements on indexed and foreign-denominated loans. Real loan values are deflated by the CPI. Corrected for entry of Kaupthing from January 2002 onwards. Data from October 2008 are preliminary. Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland

VII-8

Real M3 and domestic bank credit

Lending and M3 at constant price levels are deflated by the CPI. Data from October 2008 are preliminary. Monthly data.

Sources: Statistics Iceland, Central Bank of Iceland.
